

NDI Achieves Platinum Status as one of Canada's 50 Best Managed Companies

WATERLOO, CANADA – December 13, 2006 NDI, winner of “Canada’s 50 Best Managed Companies” for the first time in 2000, is one of thirteen companies across Canada to be added to the Platinum Club for retaining the Best Managed designation for more than six consecutive years.

“This distinction is a testament to the dedication and commitment to innovation of the entire NDI team”, said David Crouch, President and C.E.O. of NDI.

2006 has been a year of milestones and achievements for NDI including:

- the launch of the Polaris Spectra, the next generation of optical tracking technology for computer assisted therapy;
- the release of NDI First Principles Real-Time Motion Capture Software for use with Optotrak and Optotrak Certus;
- the celebration of NDI’s 25th anniversary; and
- the launch of the Optotrak PROseries, NDI’s flagship portable metrology system.

“I want to congratulate NDI on becoming a Platinum Club member. This designation exemplifies consistency, commitment and the ability to be flexible in a changing marketplace. These qualities are what makes NDI such a great business success story and one of Canada’s 50 Best Managed Companies,” said John Hughes, Partner, Private Company Services group with Deloitte, a national sponsor of the Best Managed program.

About Canada’s 50 Best Managed program

Established in 1993, Canada’s 50 Best Managed Companies is one of the country’s leading business awards program, recognizing excellence in Canadian-owned and managed companies with revenues over \$10 million. Every year, hundreds of entrepreneurial companies compete for this designation in a rigorous and independent process that evaluates the caliber of their management abilities and practices. Program sponsors are Deloitte, CIBC Commercial Banking, National Post and Queen’s School of Business.

About NDI

Headquartered in Waterloo, Ontario with offices in Germany and Hong Kong, NDI was established more than 25 years ago and has over 130 employees. NDI is the leading provider of innovative 3D-measurement solutions to the medical, industrial and research markets. The technology is used in applications ranging from image-guided surgery to automotive manufacturing to biomechanics and human motion research.
